

Capability Statement

INTERNATIONAL WASTE MANAGEMENT SUPPORT

Frith Resource Management (FRM) was incorporated in 2008 and specialises in waste and resource management consultancy. We provide advice, modelling support and expertise to the public and private sector, in the UK and internationally. We are a team of Chartered Engineers, Environmentalists, Logisticians and Waste Managers who support or lead on waste and environmental services and infrastructure (strategy, feasibility, modelling, technologies, procurement, compliance).

Internationally, the FRM team have delivered waste consultancy services for Malta, Tanzania, Bangladesh, South Africa, Indonesia, India, Egypt, Northern Cyprus and Australia. With individuals in the team having experience working in many more countries. These projects include stakeholder engagement, developing publications on waste management options and technologies, collection studies, examples of good practice, development of guidance documents for Governments on collection procurement or technology options, leading delegations, delivery of training courses to central and local government officers, independent evaluation waste technology, working with the informal sector and feasibility studies.

Our specialisms are as follows:-

- Case studies, good practice and guidance documents
- Waste collection modelling / service reviews
- Stakeholder engagement & training
- Waste policy & strategy
- Governance arrangements
- Waste flow and cost modelling
- Business cases
- Procurement support
- Leading study tours

The FRM consultancy team - International

- Paul Frith, Managing Director
- Bob Couth, Technical Director
- Sarah Massey, Senior Consultant
- Leanne Trow, Environmental Consultant

We also work with specialist consultant Rachel Wildblood (associate) to support FRM on specific international projects.
