SERVICES**

CAPABILITY STATEMENT

ABOUT US

Frith Resource Management (FRM) was incorporated in 2008 and specialises in waste and resource management consultancy. We provide services to the public and private sector, in the UK and internationally. We give advice, modelling support and expertise through our team of Chartered Engineers, Environmentalists, Logisticians and Waste Managers who support or lead on waste and environmental services and infrastructure projects.

Environmental & Quality Management

We are ISO9001 and ISO14001 certified and ensure that all works are delivered to a high standard.

PROCUREMENT SUPPORT FOR ENVIRONMENTAL SERVICES

Our team provides Tender / Bid support to a wide variety of clients. For the support we offer on the client side, we are experienced in developing the procurement strategy and evaluation criteria, drafting procurement documentation, engaging in dialogue with bidders and evaluating submitted tenders. We support our works through soft market testing and engaging with the market in advance of procurement works. We also provide a lighter touch approach in a critical friend role, where the client takes the lead and we provide tailored support on specific areas, or as a whole-process overview. The support we provide to contractors includes market intelligence, drafting method statements, waste flow modelling and evidence for performance expectations, adding value to the procurement strategy and the bid submissions.

Our significant expertise in waste collection, treatment, recycling, and strategy together with street cleansing services complements our delivery of pragmatic and innovative solutions. We also provide feasibility studies and business cases to underpin the procurement process.

"I would have no hesitation in recommending Frith Resource Management (FRM) as a 'Critical Friend' for the procurement of local authority waste collection and street cleansing contracts. FRM's expertise added real value to the suite of tender documentation which resulted in the successful procurement of two high quality, value for money contracts."

Stratford-on-Avon District Council – Critical friend for environmental services procurement

PROCUREMENT SUPPORT FOR ENVIRONMENTAL SERVICES

Our recent procurement clients include:

- Stratford-on-Avon and Warwick District Councils – joint waste collection contract
 - Swindon Borough Council – residual waste treatment contract
 - Stratford-on-Avon District Council – street cleansing contract
 - Leicestershire County Council – MRF and specialist waste contracts
- Norfolk County Council – carbon impacts for residual waste treatment contract
- WasteServ Malta – independent oversight of procurement process for Energy from Waste facility
- Serco Group – waste flow models and performance data for municipal waste collection contracts

FRM is an approved supplier under the ESPO framework, consultancy for waste management services (664-21 Lot 8h) and environmental & sustainability (664-21 Lot 8b), and the Bloom portal - both platforms for our public sector clients to appoint consultants.
