

A photograph showing a table covered with numerous yellow sticky notes. Some notes have handwritten text on them. A hand is visible in the bottom right corner, holding a pen and writing on one of the notes. A clear plastic cup sits on the table. The background is a solid dark purple color.

WASTE STRATEGY

CAPABILITY STATEMENT

ABOUT US

Frith Resource Management (FRM) was incorporated in 2008 and specialises in waste and resource management consultancy. We provide services to the public and private sector, in the UK and internationally. We give advice, modelling support and expertise through our team of Chartered Engineers, Environmentalists, Logisticians and Waste Managers who support or lead on waste and environmental services and infrastructure projects.

Environmental & Quality Management

We are ISO9001 and ISO14001 certified and ensure that all works are delivered to a high standard.

WASTE STRATEGY

FRM provide a complete Municipal Resource / Waste Management Strategy service in different local authority contexts, including the development of new strategies, options appraisals and undertaking periodic reviews and updates of existing strategies. This is particularly relevant as proposals within the National Resources & Waste Strategy for England pose major reforms for the industry and the management of Local Authority services.

FRM are experienced in developing Joint strategies for two tier areas (and have supported strategies in Warwickshire, Leicestershire, Derbyshire, Merseyside, Staffordshire), as well as Unitary Authorities (Solihull, Nottingham, Kirklees), strategies for WCAs (St Helens) and Combined Authorities (Tees Valley).

We are experts in benchmarking, waste growth modelling, the impacts of DRS / EPR, carbon impacts, the SEA process, stakeholder engagement and can model cost and environmental impacts of collection / recycling / treatment / disposal options in all relevant service areas. This provides critical evidence behind Strategy decisions.

We can convey complex options to a wide variety of audiences to enable decisions to be reached and consultation feedback received. We can also manage extensive consultation exercises and analyse responses.

"I found FRM to have a very attentive and patient manner, crucial in respect to the project in question due to many council unknowns which had potential to cause delays. I found both Paul and Cherie brought experience and guidance that could be trusted and as such I would have no hesitation in either working with them again in the future or recommending them to others".

Leicestershire's waste strategy**

WASTE STRATEGY

FRM have developed / supported c. 13 Joint Municipal Waste Management Strategies and Municipal Waste Management Strategies for Partnerships and Unitary Authorities over the past 10 years including SEA support, Options Appraisals and / or Strategy writing. Examples include: Gloucestershire; St Helens, Staffordshire; Merseyside; Warwickshire; Nottingham; City of London; Coventry; Leicestershire; Tees Valley; Kirklees; Solihull; Staffordshire; Derbyshire.

FRM is an approved supplier under the ESPO framework, consultancy for waste management services (664-21 Lot 8h) and environmental & sustainability (664-21 Lot 8b), and the Bloom portal - both platforms for our public sector clients to appoint consultants.

CVs and references can be provided on request.
